

Important Risk Warning

Trading stocks, options, futures, and other financial instruments involves substantial risk of loss and is not suitable for all investors. Past performance is not indicative of future results. You should carefully consider whether trading is suitable for you in light of your financial situation, investment experience, and risk tolerance.

Not Financial Advice

All content provided by Bam Trades, including but not limited to courses, indicators, videos, articles, discord messages, live streams, and any other materials, is for educational and informational purposes only. Bam Trades is not a registered investment adviser, broker-dealer, or commodity trading advisor. Nothing on this website or in our products constitutes financial advice, investment advice, trading advice, or any other sort of advice. You should not make any financial, investment, trading, or other decisions based solely on the information provided by Bam Trades. You should always conduct your own research and/or consult with a qualified financial advisor before making any trading or investment decisions.

CFTC Rule 4.41

Hypothetical or simulated performance results have certain limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not been executed, the results may have under-or-over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profit or losses similar to those shown.

No Guarantees

We make no representations or warranties about the accuracy, completeness, or suitability of any information provided. Individual results will vary and depend on many factors, including but not limited to:

- Your trading experience and skill level
- Your risk tolerance and capital
- Market conditions at the time of trading
- Your discipline and ability to follow a trading plan
- Factors outside of anyone's control

Risk of Loss

Trading options and futures is highly speculative and involves significant risk. You can lose some or all of your invested capital. Never trade with money you cannot afford to lose. The use of leverage in trading can work both for and against you, and can magnify both gains and losses. Before trading, you should carefully consider your investment objectives, level of experience, and risk appetite.

TradingView Indicators

Our TradingView indicators are tools designed to assist with technical analysis. They are not trading systems that guarantee profits. No indicator can predict the future direction of markets. Indicators should be used as one component of a comprehensive trading strategy that includes proper risk management.

Prop Firm Affiliations

Bam Trades maintains affiliate relationships with various proprietary trading firms ("prop firms"). When you use our affiliate links or promo codes, we may receive compensation. This compensation does not influence our educational content, but you should be aware of this relationship.

Prop firm evaluations and funded accounts carry their own risks. Passing an evaluation does not guarantee future profitability. Each prop firm has its own rules, and failure to follow these rules may result in loss of your evaluation fee or funded account.

Testimonials & Results

Any testimonials or trading results shown on our website or social media represent the experiences of individual users and are not typical. These results are not a guarantee that you will achieve the same or similar results. Your results may differ significantly based on your own circumstances.

Earnings Disclaimer

We make no claims about potential earnings from trading or from using our products. There is no guarantee that you will earn any money using the techniques and ideas presented in our materials. Examples of results are not to be interpreted as a promise or guarantee of earnings.

Third-Party Links

Our website may contain links to third-party websites or services. We are not responsible for the content, accuracy, or opinions expressed on such websites, and such websites are not investigated, monitored, or checked for accuracy or completeness by us.

User Generated Content

Our Discord server and other community channels may contain messages, comments, and content posted by other users, including moderators. These statements reflect the views of the individuals who posted them, not the views of Bam Trades, and have not been reviewed or verified by us. We are not responsible for, and disclaim all liability arising from, any user-generated content, including any trading ideas, opinions, or advice shared by community members.

Limitation of Liability

Under no circumstances shall Bam Trades, its owners, employees, or affiliates be liable for any direct, indirect, incidental, special, consequential, or exemplary damages arising out of or in connection with your use of our services or your trading activities.

Indemnification

You agree to indemnify, defend, and hold harmless Bam Trades, and its owners, employees, and affiliates from any claims, damages, losses, liabilities, and expenses (including reasonable attorneys' fees) arising out of or related to your use of our services, your trading activities, your violation of this disclaimer, or your violation of any rights of a third party.

Acknowledgment

By using Bam Trades's website, discord and services, you acknowledge that you have read, understood, and agree to this disclaimer. You accept full responsibility for your trading decisions and results.
